

WET BRAKING PERFORMANCE

KEEPING YOU SAFER.

BlueEarth-AE50 was developed in pursuit of driving pleasure. It combines exceptional manoeuvrability and comfort with fuel efficient performance.

It is superb in the wet, reducing braking distance significantly whilst boasting quietness, comfort and grip for a high level of total performance and your peace of mind.

Asymmetrical Tread Pattern

- Enhanced cornering stability

Lightning Grooves

- Improved wet driving and braking performance

Shoulder Dimples

- Greater fuel efficient performance

Technical Features

Wet Braking Performance

Orange Oil Technology

Lightning Grooves

Tread Block Design

Benefits

Extreme grip
Wet steering stability
Quiet and comfortable ride

Long Lasting + Wet Grip
+ Fuel Efficient

Block rigidity for safe and secure wet driving

Quiet driving with smaller pitch variation
