

BluEarth-XT AE61 is developed for family SUVs driving in urban locations and on motorways.

The BluEarth-XT AE61 offers exceptional on road handling performance and extra stability required for SUVs with a higher centre of gravity. Yokohama's BluEarth technology also delivers outstanding fuel economy, extra wet safety performance, and a smooth comfortable ride. The BluEarth-XT AE61 is like the perfect pair of runners you need for the hard working family SUV that constantly runs around the urban jungle; shopping, picking up the kids, dropping off friends, driving to and from work.

**Asymmetrical
Tread Pattern**

**4 Straight
Grooves**

**5-Pitch
Variation**

Technical Features

Tread Pattern

4 Straight Grooves

**Unique "A.R.T."
Rubber Blending
Technology**

Benefits

Asymmetrical tread pattern for better grip, handling & comfort.

Enhanced wet grip performance.

Improves dispersion & uniformity of silica within the compound, reducing wet braking distance.
