

# GEOLANDAR H/T G056

# I AM LONG-LASTING.

## FOR EVERYDAY HIGHWAY DRIVING

The Geolandar H/T G056 is Yokohama's highway terrain tyre developed for drivers of four-wheel drives and SUVs who spend limited time off-road and are looking for a quiet, comfortable ride with long tread life.

The Geolandar H/T G056 features a multi combination tyre compound, designed to enhance wet traction, provide better fuel efficiency and improve tread life by up to 21%.\*

4 Main Zigzag Grooves

Multiple Lug Grooves

Adaptive Shoulder Blocks

3D Sipes

### Technical Features

5 Pitch Variation

4 Main Zigzag Grooves

Multiple Lug Grooves

Adaptive Shoulder Blocks

3D Sipes

Multi Combination Compound

### Benefits

Reduces driving noise.

Improves Traction and Hydroplaning resistance.

Traction on wet roads.

Reduces tread noise and promotes even wear.

Reduces deformation.

Extends treadlife and superior traction.

\*In comparison to its predecessor, the Geolandar H/T-S G051.
